# 8<sup>th</sup> Scandinavian Symposium on Chemometrics

## June 14-18, 2003

### INTRODUCTION

The 8<sup>th</sup> Scandinavian Symposium on Chemometrics (SSC8) will be held in the Assembly Hall in the Self-Government Building, Mariehamn, Åland, June 14-18, 2003. The Symposium will cover different branches of chemistry where chemometrics is applied and contributing significantly to scientific or technical progress.

The meeting brings together researchers in the field of chemometrics. It will provide excellent opportunities for extended discussions and exchange of views regarding the application of chemometrics.

SSC8 will include all aspects of chemometrics, but will emphasize on applications in the following topics:

- Drug related design and QSAR
- Process applications and analytical chemistry
- Metabonomics, proteomics and bioinformatics
- Food research and sensometrics
- Organic synthesis and medicinal chemistry
- Environmental monitoring
- New applications in chemometrics

### INVITED SPEAKERS

<b>Rolf Carlson</b>	University of Tromsø, Norway
<b>Gabriele Cruciani</b>	University of Perugia, Italy (to be confirmed)
<b>Elaine Holmes</b>	Imperial College, London, UK
<b>Nouna Kettaneh</b>	Umetrics Inc, Kinnelon, USA
<b>Magni Martens</b>	The Royal Veterinary and Agricultural University, Denmark
<b>Mats Tysklind</b>	Umeå University, Sweden
<b>Svante Wold</b>	Umeå University, Sweden

### CONTRIBUTIONS

All participants are kindly invited to submit their contributions. Authors should indicate their preference for oral or poster presentation. All papers will be reviewed by the scientific committee, which will decide upon acceptance and form of presentation. Abstracts, a one-page abstract, should be submitted before February 10, 2003 to the Swedish Chemical Society, The Chemometric Division, Wallingatan 24 3 tr, SE-111 24 Stockholm or by e-mail to [anna@chemsoc.se](mailto:anna@chemsoc.se).

Authors will be notified about the acceptance of their papers no later than March 31, 2003.

***The symposium language will be English.***

## EXHIBITION

For questions concerning the exhibitions please contact Anna Mariager. See further information below.

## STUDENT GRANTS

Undergraduate and graduate students presenting papers at SSC8 will be qualified for a grant. No more than two grant requests per research group will be considered. Letters of application are due March 14, 2003. A letter of support from the faculty research advisor must accompany each letter as well as a copy of the submitted abstract.

## TWO PRIZES FOR EMERGING CHEMOMETRICIANS

To encourage and inspire the work of young scientists, Umetrics AB contributes two awards to emerging Chemometricians\*, each of EURO 1000. Recipients will be selected from young Chemometricians giving the best presentations at SSC8 (oral or poster). The recipients will receive their prizes in connection with the fifth Herman Wold medal ceremony.

*\*) Candidate is less than 35 years old and obtained a PhD not more than three years ago.*

## TRAVEL TO ÅLAND

Getting to and from Åland is comfortable and easy. You may choose to ride with one of the nice passenger ferries with many departures from Grisslehamn, Kapellskär or Stockholm in Sweden to Berghamn in Eckerö or Mariehamn. Departures from Finland are made from Helsinki and Turku and arrival is at Mariehamn or Långnäs in Lumparland. Naturally, you can bring your car or bike with you on the ferry.

The other alternative is to take a flight from Arlanda, Stockholm, Helsinki or Turku to the airport at Mariehamn. It's possible to make connecting flights to these airports at special prices from several places in both Sweden and Finland.
